*(They will illuminate the banks of Luit
Breaking the barriers of darkness
Streams of light flow through Pragiyotishpur
Radiance from hundreds of lamps of knowledge
Will illuminate the banks of Luit.
Leaves of sāci bark will give us language
The siphuṅg will give us hope
Theatres will open their doors
Society will be one with the great humanity
Science will usher in the tide
They will illuminate the banks of Luit....
Fearless young men and women of this century are we
Ever following the movements of fresh ideas
Let us steer clear of the whirlpool of ignorance
And pull on the oars of life...)*

FROM THE DESK OF THE VICE CHANCELLOR

DR. MRIDUL HAZARIKA

Gauhati University has just completed seventy years of its existence. As we enter into another academic year and invite applications for admissions into various courses, I appeal to the student community to make Gauhati University the destination for their academic pursuits where we not only assure them of academic excellence but also provide a platform to prepare themselves by nurturing their innate qualities.

The journey towards realizing dreams of a young mind in modern society is full of challenges. Gauhati University tries to provide the learners with academic environment, quality education and intellectual space for cultivation of their talents. This is probably the reason why the University keeps on getting some of the brightest minds of the region. We sincerely believe, this institution has all the attributes to make itself one of the most cherished destinations of the students of the country.

As we get ready to welcome a new batch of students to our university, we offer them hope and space to rejuvenate their intellectual and aspirational desires. This is the place where they will seek and find new frontiers of knowledge and we hope, in pursuit of excellence, they will also contribute towards enrichment of this institution.

In choosing Gauhati University as an academic destination, the would-be learners are going to be the members of a very wonderful community of teachers, academicians, scholars and fellow students.

Once again, I invite my young friends to be the part of the Gauhati University fraternity and request them to give us an opportunity to help transform their dreams into a reality.

A FLIP THROUGH ITS GOLDEN PAGES

Gauhati University, the oldest and largest University in the North East India, was established in the year 1948. The university was established by an act of the State Legislature: the Gauhati University Act 1947 (Assam Act, XVI of 1947) of the Government of Assam in 1948. It is the product of the collective dreams of visionaries like Gopinath Bardoloi, Krishna Kanta Handique who very early visualized the importance of institutes of higher education in the region. It was the untiring efforts of Fakaruddin Ali Ahmed, Madhab Chandra Bezbaruah, Dr. Bhubaneswar Barua and others that contributed to the establishment of Gauhati University.

The University started functioning from the city centre and was shifted to the present campus in 1955-56. It had 16 affiliated colleges and eight Post Graduate Departments at the time of establishment. At present there are 359 affiliated colleges offering undergraduate and post graduate courses in total of 9 Faculties – Arts, Science, Commerce, Law, Medical, Engineering, Fine Arts, Management and Technology. The University has forty-one Post Graduate Departments, an Institute for Distance and Open Learning (IDOL) and a constituent Law College in the main campus.

The University campus is situated at the western fringe of Guwahati, about 15 kilometres from the city centre, and with the mighty Brahmaputra to the North. It has a sprawling scenic and serene campus and is entirely self-contained, with markets, hospital, Bank, Post office, sports facilities etc. The University has impressive academic infrastructure such as well-equipped laboratories, central and departmental libraries and computer facilities. The K.K. Handiqui Central library has been recognized as a manuscript resource and a conservation centre by the Government of India. The University has capacity building centres such as the Career Counseling and Guidance Centre, the Pre-Examination Training Centre and the Women's Study and Research Centre that contribute in the overall development of the students.

The University has introduced a choice-based credit system of education, a student-friendly system where students would get the opportunity of opting for courses according to their interests and needs. The system gives the students a competitive edge in the National and Global Markets. A ten-point grading scale is in place to standardize the academic system with respect to international benchmarks.
